2 Chronicles 7:14

If my people, who are called by my name, will humble themselves and pray and seek my face and turn from their wicked ways, then I will hear from heaven, and I will forgive their sin and will heal their land.

LONGEST PENCIL

The world's longest

was created by Faber-Castell, Selangor, Malaysia, in November 2002. It measures 64 ft 9.5 (19.75 m) long and 2 ft 7.5 (80 cm) in diameter, and weighs 6 in (15 cm) in diameter. The giant pencil stands vertically inside a protective glass structure at the new Malaysian premises of Faber-Castell. The company has been manufacturing writing instruments since 1761.

Keeping too many irons in the fire' was a risky business in a number of occupations. In an old-fashioned laundry, keeping too many flat irons warming on a fire ran the risk of their overheating and thus scorching the items being ironed. A blacksmith who had too many irons in the fire of his forge risked damaging the metal he was working with if any of that became too hot. From these and similar examples the phrase has developed as a warning against having too many projects in hand at the same time.

"One Faith"

The "one faith" is the Law given by Christ. It is not one's personal faith. It is the Gospel of Christ, the New Testament. The text clearly says there is ONE FAITH, not many faiths! When one asks "what faith are you," they are not asking a Bible question! There is ONLY ONE! The "One Body" (church) is ruled by the "One Faith." If you do not belong to the "one faith" you are in the wrong "faith."

The "one faith" is God's "system of faith." Many passages speak of ONE law, ONE Gospel, ONE faith. Brethren were established in *THE faith* and exhorted to continue in it (Acts 16:5; 14:22). *THE faith* can be turned away from (I Timothy 4:1; 5:8). We are to examine ourselves whether we be in *THE faith* (II Cor. 13:5; Acts 13:8). We are to be established in *THE faith* (Col. 2:7), fight the good fight of *faith* (I Tim. 6:12), keep *THE faith* (II Tim. 4:7) and contend for *THE faith* (Jude 3). We must strive together for *THE faith* of the Gospel and continue in it (Phil. 1:27; Col. 1:23).

The *one faith* is called: the doctrine of God and Christ (II John 9; Titus 2:10), the Gospel of Christ and of the kingdom (Romans 1:1,16; Matthew 4:23), the truth (John 17:17; 8:32), the word of God and Christ (Acts 4:31; Colossians 3:16), the word of life, grace and truth (Philippians 2:16; Acts 20:32; II Cor. 6:7), the law of Christ (Galatians 6:2) and the perfect law of liberty (James 1:25).

The "one faith" produces the unity for which Jesus prayed (John 17:20-21). The traditions and doctrines of men produces division and stands condemned of God because God is not the author of confusion (Matthew 15:9; I Corinthians 14:33). Prayer books, creeds, manuals, synods, councils, disciplines and catechisms turn people away from the "one faith." A curse of damnation rests upon any who preach and practice "another gospel" (Galatians 1:6-9) because it is not the ONE FAITH.

There is ONE FAITH! It is *the faith* once and for all time delivered unto the saints (Jude 3). Is the "faith" you follow the *one faith* of the Bible? If not, you will not be saved. If you are a member of a group which wears a name not given to the church by the Lord, it is not the faith of the Bible!

Investigate the **CHURCH OF CHRIST!** It is the ONE BODY ruled by the ONE FAITH!

Taps

The last time Ripley made a public appearance was during a Memorial Day program of his own Television Show, a few days before he died. The show was built around the story of "Taps," the singularly beautiful military signal which is always played at military funerals. "Taps" was written by a Northern boy who fought for the South in the Civil War. It was found on his body by the composer's father, a Northern officer who found him mortally wounded on the battlefield. General Daniel Sickles was so moved by the recital of the tragedy that he ordered the composition played at the boy's funeral. The haunting strains of the melody caught on, and it was soon adopted by all units of the American Armed Forces.

The program was concluded with the playing of "Taps" to which Ripley added his own deeply moving farewell. It was "Taps" to his own fabulous career.

A customer in an Italian restaurant is so pleased with his meal that he insists on telling the chef personally. The owner proudly leads him into the kitchen.

"Your pizza is superb," the customer tells the chef. "I just spent a month in Italy, and yours is better than any I ever had over there."

"Naturally," the chef says. "Over there, they use domestic cheese. Ours is imported!"

Statue of 'David' Unveiled to Public

One of Michelangelo Buonarroti's most famous works of art, "David," made its public debut in Piazza della Signoria in Florence, Italy, depicting the hero from the Biblical tale of David and Goliath. The 17-foot-tall, 12,000-pound statue was carved from a block of white Italian Carrara marble that had been rejected by other artists for being flawed. It took three years for Michelangelo to complete this project.

OVERBLOWN BLOOD CELL CLAIMS There have been many claims about the discovery of dinosaur red blood cells. The claim about Gorgosaurus having red blood cells preserved in a toe claw is not true. What was found was some fibers that appear to be from red blood cells and collagen. Finding some fibers does not mean there were cells or that any DNA was found. No fossils have contained any evidence of intact DNA. In a similar way, there have been fibers found of feathers and muscles, and while these give enough evidence to say that there were feathers, it is not the original material. This is useful scientifically but is not a help in deciphering DNA or cloning a dinosaur. **NEW SPECIES IN OCEANS** A four-year study of ocean samples from the Arctic to Antarctica has revealed 35,000 organisms previously unknown to science. This gives us some idea of how little we know about life in the sea. These tiny forms of life are vital to the food chains and produce many resources such as oxygen that we depend on. **NEW AMAZING DETAILS ON FETAL DEVELOPMENT** The more amazing things we learn about how the baby develops in the mother's womb, the more of God's wisdom and planning we see being expressed. The baby opens its eyes during the 28th week, and light filtering through the womb is critical for neuron and blood vessel development. Smell and taste have developed by the 15th week, and the baby's tastes are affected by what their mothers ate and what was close to the womb. Hearing develops by the 27th week, and features of their native language such as rhythm and intonation are acquired. Touch develops as early as seven weeks and babies move swinging their umbilical cords, climbing the wall of the amniotic sac, and putting limbs into their mouths. It is difficult how anyone can deny these humans are human when they have meaning.
